HAM No 2268

Packing Specification – IW / VAC, 2 bags per carton

CHUCK TAIL FLAP

Cut from the shoulder, and with strong marbling, this cut yields a juicy, succulent, and rich flavor. Sliced down, with minimal trim fat and neat edges, it's perfect for Korean BBQ or in a hot pot. Cut as a slightly thicker steak, Chuck Tail Flap can also be seasoned and pan fried or grilled.

MARBLE PROPENSITY

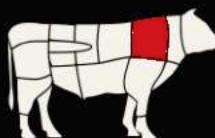

PRICE RANGE

HAM No 2266

Packing Specification – MW / VAC, 6 bags per carton

Also known as: Denver Steak, Zabuton

D-RUMP

A more affordable option for Wagyu steaks, D-Rump is quick and easy to prepare with a simple salt rub on a smoking grill. Well rested, it will remain juicy and tender.

MARBLE PROPENSITY

HAM No

2100

Packing Specification – IW / VAC, 3 bags per carton

Also known as: Rump D Trim, Top Sirloin

EYE ROUND

A leaner cut, Eye Round has minimal fat content and is cut from the rear leg of the carcass. While shaped like a tenderloin, Eye Round is much less tender and is often diced for braising or roasted whole and sliced thinly when served. And with some skill and attention, it also makes a great steak tartare or cured meat.

2110

Packing Specification – IW / VAC, 4 bags per carton

Also known as: Eye of Rump, Top Sirloin Butt, Top Sirloin

RUMP CAP

Rump Cap is the muscle that rests on top of the rump. When grilled, the top layer of fat runs through the meat yielding a rich, buttery and almost sweet flavor. Cooked whole and barbequed, it makes juicy slices once rested. In traditional Latin American cooking, the picanha is cut into thick slices and cooked over fire on long skewers.

Also known as: Porterhouse, Sirloin,
New York Steak, Entrecote

TENDERLOIN SIDE STRAP OFF

One of the most sought-after and tender cuts. Taken from under the ribs, it's lean and succulent because this muscle isn't overworked. Typically sliced and enjoyed as eye fillet steak. Can be roasted whole and is perfect for Beef Wellington. A fine-dining favorite, it's often prepared raw and served in the timeless classic, steak tartare.

MARBLE PROPENSITY

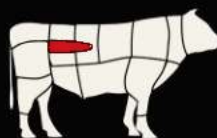

PRICE RANGE

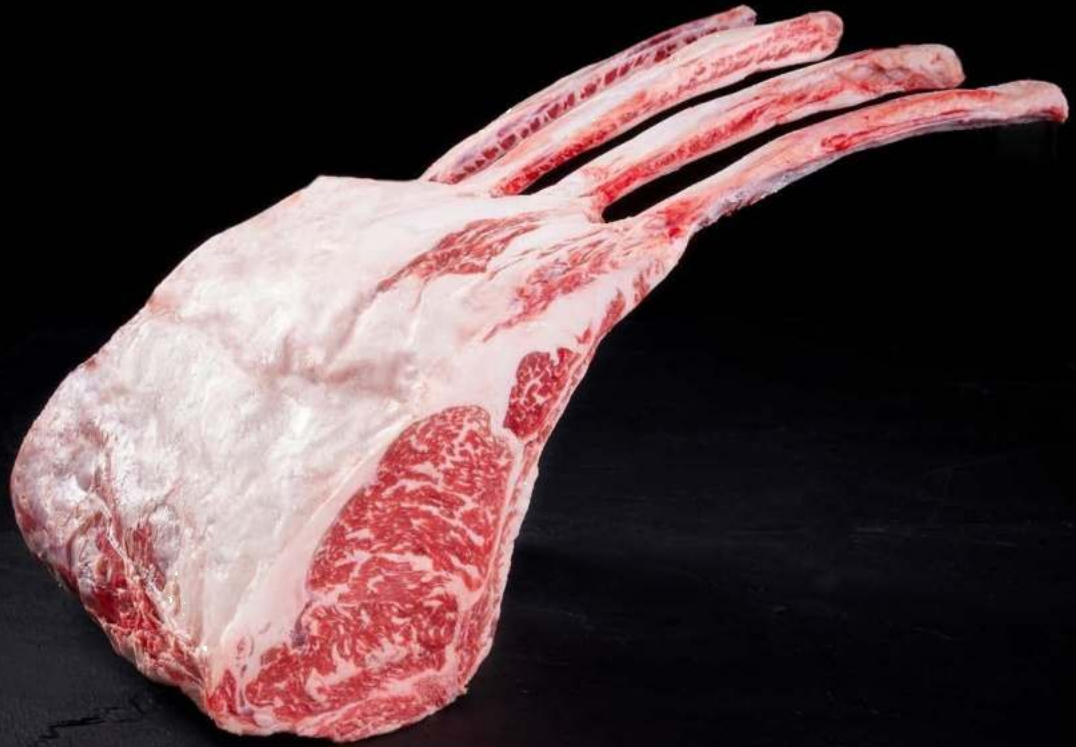

HAM No 2160

Packing Specification – IW / VAC, 4 bags per carton

Also known as: Fillet, Eye Fillet

TOMAHAWK

Regarded as the king of steaks, this is a cut you will never forget. A thick cut, it's incredibly tender and rich in flavor. Perfect for sharing and celebrating special occasions, it makes for an exceptional eating experience. It's ideal for the BBQ and should be well-seasoned and seared on both sides. It's often dry-aged which amplifies the flavour.

Also known as: Ribs Prepared, Oven Prepared Ribs, Standing Rib Roast

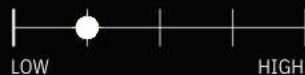

TOPSIDE CAP OFF

A great value cut that's incredibly lean and full of delicious flavor. It's taken from the hindquarters of the carcass between the leg and rump. It's best suited to roasting whole. It's also perfect for hot pot or soups when sliced thinly and across the grain to maximise its tenderness.

MARBLE PROPENSITY

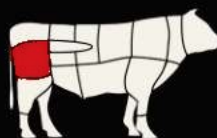

PRICE RANGE

HAM No 2001

Packing Specification – IW / VAC, 2 bags per carton

Also known as: Top Round, Inside Cap Off

TRI TIP

A favorite among meat lovers. This triangular, lean cut of meat is separated from the rump and is recognized for its distinctive shape. Extremely versatile, it can be sliced into steaks and cooked on the grill or roasted whole. It boasts a robust, beefy flavor and impressive marbling.

MARBLE PROPENSITY

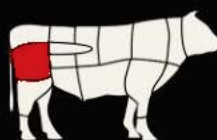

PRICE RANGE

HAM No 2131

Packing Specification – MW / VAC, 8 bags per carton

Also known as: Bottom Sirloin Triangle, Rump Tail

THICK SKIRT

Unlike most other cuts, there is only one piece of thick skirt on a carcass. Because it's encased in a membrane, it's best prepared by a butcher. Ideal for marinating, it should be cooked quickly over the hottest grill. Its rich flavor profile will be unlike anything you have tried before.

Also known as: Hanger Steak, Hanging Tender FZN

THIN SKIRT

A long, thin cut found just below the rib. Being lean, it's known for its tender, juicy, and beefy flavor. Slice thinly and against the grain. It's perfect for Korean BBQ or can be grilled whole. It's a favorite in high-end Japanese Yakiniku restaurants.

MARBLE PROPENSITY

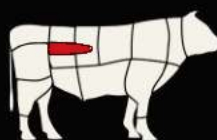

PRICE RANGE

HAM No 2190

Packing Specification – MW / VAC, 10 bags per carton

Also known as: Outside Skirt

CHEEK

The perfect cut for slow cooking. Because the cheek is a working muscle, it needs plenty of time to break down and absorb the braising juices, delivering a silky, rich flavor, and decadent texture. It can be cooked whole, diced for curries and stews or sous vide then pan seared.

MARBLE PROPENSITY

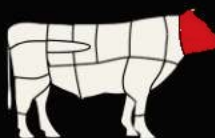

PRICE RANGE

HAM No 6061

Packing Specification – MW / VAC, 12 bags per carton

TAIL

A delicious and affordable cut that can be used in a variety of dishes. Being on the bone gives it an excellent depth of savory flavor. Incredibly tender, the meat should be slow-cooked or braised until it falls off the bone. When cooked in a stew, it delivers a deep umami flavor.

MARBLE PROPENSITY

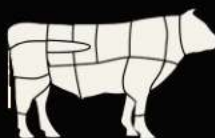

PRICE RANGE

HAM No 6070

Packing Specification – IW / VAC, 8 bags per carton

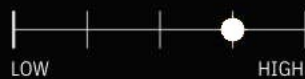

TONGUE

A delicacy in many cultures, this is a highly prized cut in Japan and Korea. In fact, if given the choice, many Japanese people will choose this over any other cut. Packed with flavor, its soft texture melts in your mouth. For the best results, cook over charcoal.
